**DEFENCE CAPITAL FACILITIES AND INFRASTRUCTURE BRANCH –  
PLANNED UPCOMING APPROACHES TO MARKET NOTICE  
(JANUARY 2022 UPDATE)**

1. This Notice provides information on planned upcoming approaches to market that may be released from the Department of Defence's Capital Facilities and Infrastructure Branch (CFI).
2. CFI is responsible for planning, developing and, subject to approval, delivering capital facilities and infrastructure projects (projects) across the Defence estate.
3. CFI operates an outsourced model where it procures industry to manage, design, construct and provide specialist skills in support of each project. This typically includes Design Services Contractors, Head Contractors, Medium Works Contractors and/or Managing Contractors.
4. CFI recognises the importance of keeping industry informed of planned upcoming approaches to market. This Notice, inclusive of Attachment A, provides industry with information on each potential upcoming planned approach to market opportunity, including the planned date of advertisement on AusTender (<https://www.tenders.gov.au/>) and relevant point of contact.
5. The information contained within this Notice is indicative only and is subject to change. Prospective tenderers are therefore not entitled to make any claim for, and the Commonwealth shall not be liable for, any liability, costs or loss incurred as a result of any delay in the release of, or any failure to release, any approach to market detailed within this Notice.
6. All project-specific enquiries are to be directed to the point of contact nominated in Attachment A. All general enquiries are to be directed to myself. Mr Greg Thompson, CFI Director Business and Program Management via email, [greg.thompson4@defence.gov.au](mailto:greg.thompson4@defence.gov.au).

Yours sincerely,

**Greg Thompson**

Director Business and Program Management  
Capital Facilities and Infrastructure Branch
