

# ChemAlert IP address changes

Published 28<sup>th</sup> August 2024

All inbound and outbound IP address modifications listed in the tables below will take place between **8:00 AM Saturday 28 September to 1:00 AM Sunday 29 September (AEST, UTC+10)**.

## Inbound IP addresses:

If there is any hardcoding or whitelisting of our IP addresses, please update the new inbound IP addresses as below. This may include updating firewall rules, DNS settings, or any other configurations that reference our IP address.

DNS record	New IP address	Old IP address	Usage
chemalert.rmt.com.au def.rmt.com.au	20.211.84.195	103.232.248.59	ChemAlert application access
camobile.rmt.com.au	20.11.34.94	103.232.248.61	ChemAlert mobile access
sds.chemalert.com sds.chemalert.com.au sdshosting.chemalert.com sdshosting.chemalert.com.au msds.chemalert.com msds.chemalert.com.au	20.211.154.227	103.232.248.61	SDS Hosting

## Outbound IP addresses:

If there is any hardcoding or whitelisting of our outbound IP addresses, please add the outbound IP addresses of our Perth (Failover) and Sydney (Primary) data centre hosting to your configuration. There are no changes to our DNS record.

DNS record	Sydney data centre IP address	Perth data centre IP address	Usage
canotifications.com	103.143.250.30	103.232.248.58	Outbound RMT email Server for ChemAlert
