

# Added peace of mind

## Yamaha Motor Australia offers three months extended warranty

Yamaha Motor Australia has introduced a three-month warranty extension to give marine and motorcycle customers added peace of mind in these uncertain times.

The initiative has been introduced to ensure that customers who are unable to use their Yamaha products during the current period of enforced inactivity are not left disadvantaged.

The Three-month Warranty Extension applies to all Motorcycle, Outboards and WaveRunner products and to these groups between 1 April and 30 June 2020:

- Existing warranty holders
- Warranties that expire in this period
- New models purchased in this period
- The offer does not apply to ATVs not ROVs

*"We are all in this together," says YMA Chief Operating Officer and Director Brad Ryan. "And we are constantly looking to introduce initiatives that offer both our dealers and customers more confidence in these uncertain times."*
